

## HOW DOES THE TPF GRANT PROCESS WORK?

(This is a true story, although the name has been changed.)

Debra needed help paying an overdue electric bill.

Debra was praying and knowing that divine Love was supporting and guiding everyone. She felt led to ask for financial assistance from The Principle Foundation.

Debra explained her situation to a Principle Foundation staff member. They shared some comforting spiritual ideas about how God provides for man.

TPF has **22** local committees, around the country, comprised of volunteers. Debra's case was sent to a local committee. (Where no local committee is available, the case is processed at the national office.)

The grant committee discussed Debra's situation and approved the grant.

The following day, The Principle Foundation called Debra and let her know that her grant was approved. The funds were wired to her bank account.

Debra was one of **335** individuals who received financial assistance in 2017.

“Many thanks to all individuals who reviewed my case and made the decision to provide assistance to someone who felt at that particular moment like the lone traveler left by the wayside... I now truly feel blessed beyond measure. There is a new spirit renewed within me that shouts and declares the allness of God and the superabundance of His omnipotent blessings.”

-- Debra (Grant Recipient)
